History: This message has been replied to.

I found one typo (discharges >> discharged or something similar).

How much did we look at other aspects of the yard (e.g. were there good housekeeping practices in the maintenance garage, salt storage OK, etc.)? If you have any notes on that, we might want that in the report. (That way, if I audit Beverly's MS4, I can refer to this report and won't need to tour the yard again).

AS note 10-14-11 inspection report.docx

George Harding
